IN THEIR HOUR OF TRIAL

Have Confidence That the President Will Perform His Duty Under The Constitution.

Chicago. Aug. 7 .-- The temper of the convention of the Federated Catholic societies relative to the Philippine question, was put to the test oat the closing session today, John T. Keating, a national officer of the Hibernians, offered a substitute resolution for those previously brought before the meeting. Mr. Keating proposed that the delegates dismiss the friars and the Philippine school questions with a mere expression of satisfaction with the manner in which the subject is being handled by the vatican and the adninistration. When a motion on the substitute was put, there was but one affirmative vote, and that one was Keating's. The convention then adopted

he following resolutions:
"We hereby express confidence that Theodore Roosevelt, president of the United States, will perform his duty under the Constitution and laws and our cial inquiry into any abuses by subordinate government officials in our terpossessions and promptly recsuch abuses. We are especially fident that in his dealings with the erious problems arising in the Philip plnes, property and personal rights guaranteed by trtaty, laws and Consti-tution will be faithfully safeguarded

That we extend to the friars in the Philippines our fullest sympathy in this, their hour of trial; that we appreciate the value of their services in the cause of religion and manity; that we pledge them our as American citizens in upholding the hands of our government in its determination to see that they are treated with that common justice that belongs to all who enjoy the protection of the American flag.
"Resolved, That this federation con-

gratulate the vatican and the American government on the position attained in the negotians regarding the questions which have arisen in the Philippines, and we express our full confidence that these negotiations will be continued un-

Other resolutions regretted present circumstances surrounding the Indian schools and pledged active and moral support in remedying the conditions. The establishment of Catholic high schools wherever practicable was advocated; sympathy was expressed for the Catholics of France in, their present troubles, and suitable recognition was taken of the death of Archbishops Corrigan and Feehan.
Atlantic City was chosen as the meet-

ing place of the convention in the third week of July, 1903. The election of officers resulted in a few changes. Among the officers are: B. Minahan, Columbus, O., presi-nt; Louis W. Rescuing Party Pushing Forward With All Possible Speed-Most Probably Mine is Ruined.

Trinidad, Colo., Aug. 7 .- A most disastrous explosion occurred this evebing at 6:30 o'clock at No. 3 mine at Bowen, a small camp about ten miles north of this place, in which 13 lives are known to have been lost. The exact number of men working on the night shift and in the mine at the time of the explosion is unknown.

The mine is worked by the Union Coal company of Denver, and is a stope mine, situated on the mountainside and about 400 yards from the tipple be-low. The explosion occurred about 800 feet from the mouth of the stope and

was caused by firedamp. Immediately after the night shift had started into the stope a terrific explo-sion occurred, entirely filling the mouth of the stope and shaking buildings and breaking windows for a mile distant. Owing to the mouth of the stope being filled, the rescuers were delayed for some time, but succeeded in reaching part of the men through an old stope, and eight dead bodies were quickly brought to the surface.

The mine is filled with gas and smoke and the rescuers are afraid of afterdamp and are unable to stay in the mine more than a short time. Mothers, wives and children of the dead and imprisoned miners are almost crazed with grief, and the scene presented at the mouth of the mine is a most pathetic one.
